In my tenure as Supervisor of Elections for Pasco County, we have strived to partner with our fellow constitutional officers and the county commission to help inform Pasco County citizens. My most recent partnership with the Pasco County Property Appraiser's office, is to disseminate important voter registration information to new property buyers. As a Home Owner Association, you, too, are in position to help inform Pasco County residents of the very important constitutional right to vote. Residents who are new to Florida may not be aware of important deadlines such as the book closing date and the concept of statutorily defined closed primary elections.

With the endless details of re-locating, registering to vote or updating a voter registration is probably not a new resident's highest priority, but there are many services available through our website:

- Registering to vote on-line
- Updating your address from another Florida county or address within Pasco County
- Requesting vote-by-mail ballots
- Locating your precinct number and polling location
- Viewing the elections calendar
- Learning who your representatives are and their contact information

It is my hope that you would partner with my office by providing this helpful information to the new residents of your community. Inclusion in a welcome packet, a monthly newsletter, a community bulletin board or model home would be the perfect opportunity to help us get the residents of your community out to the polls to exercise their right to vote. The link on our website, <https://www.pascovotes.com/NewResident> has great information for new residents to get started.

Please contact Tami Bentley, our Director of Administrative Services at 800-851-8754, for any further assistance or questions. Registering to vote in advance of Election Day, and insuring voter registrations are up-to-date, will help us to continue to provide excellent public service to the citizens of Pasco County. I look forward to working with your association.

Sincerely,

Brian Corley

Primary Election Fun Facts

- **By law, Florida is a closed primary state.** A closed primary means *the candidate choices on your primary ballot will be candidates that are the same party affiliation as your voter registration.* In Florida, the parties elect their own candidates which go on to oppose the opposite party in the General Election.**
- A Universal Primary Contest (UPC) is a contest in which all candidates have the same party affiliation, and the winner will have no opposition in the General Election. All qualified electors vote in a UPC regardless of party affiliation.
- Unlike many states, party changes on Election Day are statutorily prohibited in Florida.
- All voters vote for the non-partisan judicial and School Board Member races in the Primary. If you are registered without party affiliation, there is still a ballot for you!

* For a list of acceptable forms of ID visit www.pascovotes.com.

** In General Elections ballots are not party specific. Voters are issued precinct-specific ballots according to state house and senate lines, local contests such as Community Development District races, and all candidates elected at large.
